

RESOLUTION NO. 90-2020
BOROUGH OF SEA BRIGHT
PLEDGING TO SUPPORT THE NEW JERSEY WILDLIFE ACTION PLAN

Councilmember Keeler introduced and offered the following Resolution for its adoption: seconded by Councilmember Leckstein:

WHEREAS, New Jersey is home to a rich diversity of wildlife and ecologically significant natural communities; and

WHEREAS, New Jersey's wildlife and wild places are under threat from development, fragmentation, invasive species and the impacts of people; and

WHEREAS, the populations of mammals, birds, invertebrates, fish, reptiles and amphibians that live in and migrate through New Jersey find themselves clinging to smaller and smaller pieces of wild clean lands and aquatic habitats;

WHEREAS, it is more cost-effective to prevent species from becoming imperiled than it is to recover them once their populations have declined; and

WHEREAS, a naturally functioning and healthy ecosystem represents a healthy environment for NJ wildlife and our citizens; and

WHEREAS, the NJ Division of Fish and Wildlife, other state and federal agencies, and many partners in conservation have worked together to develop a state Wildlife Action Plan for the benefit of biologists, wildlife experts, municipal leaders, land stewards, non-profit organizations, educators, planners, researchers, outdoor recreation enthusiasts, landowners and all the people who know the wild places of New Jersey State; and

WHEREAS, the New Jersey Wildlife Action plan is a comprehensive action agenda for the conservation of native wildlife, the restoration of important lands and water, and public education targeting the needs of rare wildlife in New Jersey; and

WHEREAS, the residents of, and visitors to, New Jersey also enjoy and benefit from New Jersey's wildlife and wild spaces.

NOW THEREFORE, BE IT RESOLVED, that the Borough Council of the Borough of Sea Bright, County of Monmouth, State of New Jersey pledge to take the following steps with regard to our municipal land-use decisions with the intent of making the Borough of Sea Bright an ecologically sustainable community. It is our intent to include these principles in our public lands management, our environmental resources inventory and to inform the next master plan revision and update our zoning accordingly.

- We will identify imperiled species, critical habitat and unique ecosystems in our Environmental Resource Inventory.
- Acknowledging that it is more cost-effective to protect species than recover species, we will protect populations of rare and imperiled species that live and breed in, and migrate through, the municipality and the habitats they depend upon.
- Because habitat integrity is critical to healthy biodiversity we will manage publicly owned lands in accordance with wildlife management actions laid out in the New Jersey Wildlife Action Plan and will promote the management of all protected lands to promote biodiversity.
- We will protect wildlife habitats and maintain connectivity of habitat when formulating an open space acquisition strategy, open space stewardship plans and through the municipal master plan including planning and zoning ordinances.
- We will seek to minimize disturbance of critical wildlife populations and their habitats from human activities, subsidized predators and invasive species.

- When possible and appropriate, we will work with neighboring municipalities to implement the aforementioned principles across municipal boundaries.
- When possible and appropriate, we will strive to monitor and implement appropriate management of municipal easements to ensure native vegetation and wildlife takes precedence over invasive and/or exotic species.

BE IT FURTHER RESOLVED that a certified copy of this Resolution be forwarded to the following:

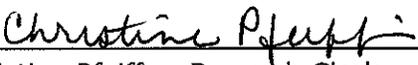

1. Sustainable Jersey
2. Borough of Sea Bright Green Team
3. NJ Division of Fish and Wildlife
