Hi Candace,

As far as his approval few comments.

1. The outside storage of propane tanks will be regulated by the Fire Code. Will not be allowed to store over allowable amounts.
2. I do not see anything on the plan indicating his outside storage of the used oil from the fryers. awaiting pickup. Will this be allowed.
3. Will there be any dumpster included in the approval.
4. Will the inside storage be limited to dry goods ? ( Paper products, table clothes, Etc. No food or freezers)
5. And any other outside storage allowed?

let me know.
